REMARKS: Above data is based on test results using an A2 shade composite. The light tip was placed above and pointed perpendicular to the composite. Tests were done as per ISO 4049 Standard. The samples were measured and the data was divided by two (50% of the total composite depth cured). ISO 4049 Standard requires that the results for class II restorative materials should be at least 1.5 mm for non-opaque shades and 1.0 mm for opaque shades. All resins and composites have different curing times. It is recommended that you should test your resins and composites performance to determine the curing times required.

### CURING LIGHT MODE APPLICATIONS

**TACK**

A very short initial cure for temporary processing before the final cure. For example when removing excess materials whilst bonding veneers or using temporary cement. Tack rings are included inside the box.

**TURBO**

Super fast curing for resin and composite that is no more than 2 mm thick. Also recommended for ceramic brackets, bonding veneers etc.

**3’ + 3’**

3 Second Mesial + 3 Second Distal for metal brackets resin bonding (with 1 second blink in between)

**6’ + 6’**

6 Second Mesial + 6 Second Distal for metal brackets with bonding resin requiring more curing time and for buccal tube bonding (with 1 second blink in between)

**FULL**

For general applications

**RAMP**

First 0–5 seconds are ramped for general application.

**SOFT CURE**

First 0–5 seconds are ramped for more gentle processing, designed for patients sensitive to heat.

---

**24 MONTH WARRANTY**

*For every C01 Curing Light purchased (any model) get one 063 Hand Shield FREE*
C01 Curing Lights

**REMARKS:** Above data is based on test results using an A2 shade composite. The light guide tip was placed above and pointed perpendicular to the composite. Tests were done as per ISO 4049 Standard. The samples were measured and the data was divided by two (50% of the total composite depth cured). ISO 4049 Standard requires that the results for class II restorative materials should be at least 1.5 mm for non-opaque shades and 1.0 mm for opaque shades.

All resins and composites have different curing times. It is strongly recommended that you should test your composite and resin performance to determine the curing times required.

**Data is only for reference, always follow the instructions from your resin and composite manufacturers.**

- There are many variables (distance and angle between the light tip and composite, area, shade, thickness and type etc.) affecting composite curing times. It is recommended to place and cure a maximum of 2 mm for each composite placement.
- Using a barrier sleeve on the curing light will reduce 5-10% of light intensity.
- The light guide tip should be placed approximately 1-2 mm above the composite or resin and pointed perpendicular to the tooth surface.
- High intensity curing lights produce more heat. This is a direct indication of the power of the light being emitted. When using the device for more than 10 seconds, do not keep the light tip in one position. It is always recommended to use a dental syringe to blow a cold air flow on the area during long periods of curing. This will maintain a lower temperature for the composite and surrounding area, particularly when using rubber dam so as to avoid any rubber dam breakage due to heat built-up.
- Do not expose soft tissue to the light being emitted for more than 2 seconds or burns may occur.
- Avoid the light guide tip coming into contact with any soft tissue in the mouth.

Curing Light and Turbines

- Direct light source head 90° for easy access to limited space areas
- Radiant intensity: 1200~1600 mw/cm²
- Range of wavelength: 440~480 nm
- A full charge of battery can be used more than 100 times when set at 10 second working time mode
- Direct charging option from transformer for easy transportation and mobility
- Complete with protective light shield and light sleeves (100 pcs)
- Size: length 23.5 cm x dia 2.7 cm
- Weight: 160 gm
- Colours: Pink, Orange, Yellow, Light Green, Green, Lime, Light Blue, Lavender or Light Lavender

- Automatic compensation circuit for constant power output
- Five modes of working time: 5, 10, 15, 20, 25 seconds
- Three working outputs: 100%, 75%, 50%

C02 LED Curing Light 90° Right Angle $220.00
C02-1 Direct Light Source Head 90° (cold disinfectant only) $59.95
C02-2 Light Head Protective Caps, 5 pcs/pack $15.80
C02-3 Heat Protective Rings, 5 pcs/pack $19.80
123SS Curing Light Sleeves, 500 pcs/box $44.55
063 Light Protective Hand Shield $33.55

MARATHON HANDY ECO LABORATORY BRUSHLESS MICROMOTOR

- Handy ECO Brushless Micromotor complete set ... $1,265.00

- Digital speed display 1,000 - 45,000 r.p.m
- Variable speed control by hand dial or foot pedal
- Max torque: 850 gf/cm
- Control box size: L14 cm x D18.5 cm x H10 cm

SDE-H35E MARATHON LABORATORY MICROMOTOR

- Micromotor Complete Set ... $687.50
- Micromotor Only ... $386.00
- High torque
- Hand or foot control
- Variable speed control 2,000 - 32,000 rpm
- Right and left turning ability

SDE-H35E MARATHON MICROMOTOR “E” FITTING

- “E” Motor Set without Handpiece ... $599.50
- Contra Angle Handpiece 1:1 ... $99.55
- Straight Handpiece 1:1 ... $99.55
- High torque “E” motor
- Hand or foot control
- Variable speed control 2,000 - 32,000 rpm
- Right and left turning ability
A08 DENTAL APEX LOCATOR

- Bright LCD screen with the trajectory of the file being clearly indicated by different colours
- Foldable design with adjustable view angle, saves space and protects the screen
- The unit is designed with a smooth seamless body and membrane buttons to enhance cold sterilization and help avoid cross contamination
- Advanced multiple frequency technology with automatic calibrating ensures accurate measurement
- Measurement results are not affected by tooth type, size of root canal or the internal environment of root canal
- Different beep tones indicate the position of the file in the root canal
- Rechargeable lithium battery
- Accessories autoclavable up to 134°C
- Screen size: 110 mm x 70 mm
- Overall size: L122 mm x W118 mm x H25 mm
- Weight: 300 gms (including battery)

24 MONTH WARRANTY

PREMIUM AP III DENTAL BURNER

- Designed for safe, one handed use
- Battery powered ignition lights instantly with just a press of a button
- Adjustable flame setting and lock-off switch
- Burns up to 30 minutes on one butane fill-up
- Size: 14 cm long

$368.50/set

SPECIAL $295.00

WOODPECKER CURING LIGHT ACCESSORIES

- Compatible with popular autoclaves
- Universal fitting compatible with popular autoclaves

Curing Light Depth Gauge each $9.90

Test for class B autoclaves to evaluate the capacity of penetration of the steam in hollow loads. Composed of a tube and 250 colour testers to confirm sterilization

Helix Tester Set .... $396.00

Bacteriological Filter each $24.75

C10 LED & HALOGEN CURING LIGHT METER

- Measures intensity up to 2500 mw/cm²
- Size: 110 mm x 68 mm x 33 mm

C10 Light Meter $59.95

24 MONTH WARRANTY

BORNART E1 ELECTROSURGERY UNIT

- Cut COAG 1 & COAG 2 mode with 10 level power cutting
- User friendly control panel
- Minimal scar tissue formation
- Work frequency: 1.3 - 1.7 MHz ± 5%
- Max. out power: 50 W (@400 ohm load)
- Size: W23 cm x D22.5 cm x H8.3 cm

SPECIAL $687.50/unit [offer subject to stock availability]

DOCTOR AND SADDLE STOOLS

- Ultra stable base

A. Doctor Stool ......................... $495.00
   [colours available: Medium Blue, Dark Blue and Black]
B. Saddle Stool ......................... $396.00
   [colour available: Dusty Jade Green]
PIEZO ULTRASONIC SCALERS with endo function
UDS-E (EMS 1 TYPE) PORTABLE SCALER
UDS-P (EMS 1 TYPE) TABLE TOP SCALER
UDS-N3 (EMS 1 TYPE) BUILT-IN SCALER

ARE NOW AVAILABLE WITH LED LIGHT

UDS-E LED (EMS 1 TYPE) PORTABLE SCALER
Complete with 8 Tips
(G1, G4, G5, G6, P1, P3, P4D and E1)
Size: - W24.5 cm x D19.5 cm x H11 cm

UDS-P LED (EMS 1 TYPE) SCALER
Complete with 6 Tips
(G1x2, G2, G4, P1 and E1)
Size: - W18 cm x D14.5 cm x H9 cm

UDS-N3 LED (EMS 1 TYPE) BUILT-IN SCALER
UDS-N3 LED Kit (EMS 1 Type) Built-in LED Scaler with 6 Tips
(G1T x 2, G2T, G4T, P1T and E1T) ........................... $396.00
Size: - W8 cm x D6 cm x H4 cm

DTE-V3 LED Kit (SATELEC 2 Type) Built-in LED Scaler with 6 Tips
(GD1T x 2, GD2T, GD4T, PD1T and ED1T) ............. $396.00

TITANIUM SCALER HANDPIECES
for WOODPECKER, EMS 1 Type Scalers

HW-3H (Woodpecker, EMS 1 Type) Non-LED Scaler Handpiece .... $198.00
HW-5L (Woodpecker, EMS 1 Type) LED Scaler Handpiece .... $220.00

TITANIUM SCALER HANDPIECES
for DTE, SATELEC 2 Type Scalers

HD-7H (DTE, SATELEC 2 Type) Non-LED Scaler Handpiece .... $247.50
HD-7L (DTE, SATELEC 2 Type) LED Scaler Handpiece .... $247.50

WOODPECKER SCALER TIPS STAINLESS STEEL FOR WOODPECKER, EMS\textsuperscript{1}, DTE, SATELEC\textsuperscript{2}, NSK\textsuperscript{3} or SIRONA\textsuperscript{4} Type Scalers

**ENDO**

E1 (WOODPECKER, EMS\textsuperscript{1} Type)
ED1 (DTE, SATELEC\textsuperscript{2}, NSK\textsuperscript{3} Type)
ES1 (SIRONA\textsuperscript{4} Type)
120° Endo Holder, for root canal cleaning

E2 (WOODPECKER, EMS\textsuperscript{1} Type)
ED2 (DTE, SATELEC\textsuperscript{2}, NSK\textsuperscript{3} Type)
ES2 (SIRONA\textsuperscript{4} Type)
95° Endo Holder, for root canal cleaning

E3 (WOODPECKER, EMS\textsuperscript{1} Type)
ED3 (DTE, SATELEC\textsuperscript{2}, NSK\textsuperscript{3} Type)
ES3 (SIRONA\textsuperscript{4} Type)
For the lateral thermal condensation of gutta-percha

E3D (WOODPECKER, EMS\textsuperscript{1} Type)
ED3D (DTE, SATELEC\textsuperscript{2}, NSK\textsuperscript{3} Type)
ES3D (SIRONA\textsuperscript{4} Type)
Used to remove the calcification and filling material of pulp cavity (diamond-coated)

P4D (WOODPECKER, EMS\textsuperscript{1} Type)
P4D4 (DTE, SATELEC\textsuperscript{2}, NSK\textsuperscript{3} Type)
PS4D (SIRONA\textsuperscript{4} Type)
Remove calcification in the coronal third of the root canal (diamond-coated)

E10D (WOODPECKER, EMS\textsuperscript{1} Type)
ED10D (DTE, SATELEC\textsuperscript{2}, NSK\textsuperscript{3} Type)
Used for root canal retrogression, efficient root apical polishing (diamond-coated)

E8 (WOODPECKER, EMS\textsuperscript{1} Type)
ED8 (DTE, SATELEC\textsuperscript{2}, NSK\textsuperscript{3} Type)
Bur Holder, to enlarge root canal

E9 (WOODPECKER, EMS\textsuperscript{1} Type)
Bur Holder, to enlarge root canal

SHOFU EyeSpecial C-III DIGITAL DENTAL CAMERA Designed Exclusively for dentistry

EyeSpecial C-III
Ultra-Light
Accurate
Compact
Simple
Intuitive

Smart Digital Camera for the Entire Dental Team

for more information, please contact us today.

8 Pre-set dental shooting modes
12 megapixel CMOS sensor
Precise and detailed images with exceptional depth of field
Exclusive FlashMatic system for true colour reproduction
Auto-cropping, smart focus and zoom
Water, chemical and scratch resistant
Single handed operation, even with medical gloves
Lightweight: approx. 590 grams
Intuitive one-touch operation
Wi-Fi memory card compatible for instant upload of clinical photos to operatory computer

Image documentation is an integral part of the modern dental workflow. However, it needs to be easy, quick and delegable with consistent results.

EyeSpecial C-III is the digital dental camera that enables all the dental team members to achieve predictable results every time, regardless of their experience.

Designed for smart digital dental photography, EyeSpecial C-III produces predictable clinical photographs for case documentation, diagnosis, treatment planning, patient communication and education, medico-legal and insurance verification, dental lab collaboration, quality assurance of the dental treatment and follow-up.

For more information, please contact us today.
